

REDEFINING THERMAL PERFORMANCE FOR PATIO DOORS

Smooth gliding, aluminium-hybrid patio doors.

NEXT GENERATION INLINE DOORS

With built-in thermal performance.

WarmCore inline patio doors allow natural light to flood in to your home through large glazed sashes that maximise the enjoyment of your view.

The full width thermal core at the heart of the WarmCore range lets you enjoy the desirability and durability of aluminium, while keeping your home snug and warm. Custom designed 10 wheel rollers glide effortlessly on a precision engineered track, making these panoramic doors the perfect blend of aesthetics and performance.

U1.0

With triple glazed U-values (used to calculate thermal efficiency) as low as 1.0 and double glazed values of 1.4, your WarmCore patio will help keep heating bills low.

**10 year
guarantee**

Peace of mind comes from a comprehensive 10 year guarantee covering surface finish and mechanical operation direct from the manufacturer.

**Incredibly secure,
helping protect you
and your home.**

SECURITY BUILT-IN

Featuring our bi-directional lock, for added security

Each of our WarmCore patio doors are fitted with a high security 'Anti-Snap' and 'Anti-Bump' Yale Platinum 3 Star cylinder, designed to provide maximum security against known cylinder attack methods.

For added peace of mind choose the optional laminate glass upgrade – giving your WarmCore patio doors 'Secured by Design' accreditation - the official UK Police initiative 'designing out crime' through physical security.

Innovative Handle & Lock

With an emphasis on clean, modern aesthetics we custom designed a high quality 'lift-to-lock' handle, unique to the WarmCore patio. This innovative handle operates the bi-directional locks located at the top and bottom of the door. These 'claws' make WarmCore patios incredibly secure, helping protect you and your home.

CHOOSE A DIFFERENT COLOUR, INSIDE AND OUT

The choice is all yours.

WarmCore inline patios are available in a choice of 15 hard wearing powder coated colours and 6 stunning woodgrain foils. Your choice of external and internal colour helps you match the look of your home inside and out.

Light Admiralty Grey BS 381C 697	Pebble Grey RAL 7032	Traffic White RAL 9016	Smoke Grey BS 381C 692	Antelope BS 4800 08 B 21

Woodgrain foils

Light Oak Super-Matt	Ginger Oak Super-Matt	Honey Oak Super-Matt
Monument Oak	Amaranth	Macore

THRESHOLD OPTIONS

Flexibility designed to match your needs.

A choice of threshold options, which can be combined with various sill configurations, let you find the ideal solution for your requirements.

CLEAN, CONTEMPORARY LINES

Architectural appeal meets practicality.

We've brought the classic sliding patio door up-to-date with clean lines, a flush finish and a hard-wearing aluminium exterior, combining architectural appeal with practicality.

With two, three and four pane configurations you can choose a style that suits both your home and living style, bringing the outside in during summer months and keeping the cold out during the winter.

**Built in safety brakes
guarantee soft,
dampened operation.**

NEXT GENERATION INLINE PATIO

Reliable and safe.

10 wheel roller

The WarmCore inline patio uses a unique, high-quality wheelset with each sash running on 10 self-levelling rollers to give you ultra-smooth, reliable performance.

The wheels have been tested to 50,000 cycles, so you know your doors will be running effortlessly for years to come.

Safety first

Our modern safety brakes are an optional add-on to prevent trapped fingers and unintentional slamming, particularly useful when children are around.

Carefully engineered, these built in safety brakes guarantee soft, dampened operation, helping prevent misuse.
